# BEST ELECTRIC GOLF CARTS

At Muhammad Hadi Al-Juhani Trading Establishment, we embarked on a journey long ago to transform various transportation methods and energy solutions to align with Vision 2030. Our focus is on transitioning from traditional energy sources to electric power. This involves customizing golf carts for diverse purposes and transforming conventional transport systems into highly efficient electric vehicles. As authorized agents and distributors for several global brands dedicated to advancing this sector, we possess extensive expertise in managing such initiatives. Our track record includes successfully operating many high-quality projects with Govt. Corporate and private sector as well as individuals.

The notable shift in the current automotive industry is focused on addressing the growing need for larger, high performance, reliable components that are lightweight in order to meet fuel efficiency standards at a reasonable cost while also meeting safety standards.

At Hadi Est., we take pride in being a provider of environmentally friendly transportation and mobility solutions, we offer unique and personalized electric carts and vehicles to our partners, customers, and clients in the government, Spare Parts corporate, and private sectors according to Vision 2030.
